

Title:

**Roof To Wall
Detail**

Number:

PG-RWD-013

Revised:

March 2020

Notes:

- Surface Coat:
Polyglass
elastomeric roof
coatings
- Base Coat:
Polyglass
elastomeric roof
coatings
- Flashing
Compound:
Polyglass flashing
compound as
required. Apply at
1/8" thick.
- Polyester:
Polyglass
reinforcing
polyester
- Surface
Preparation: All
surfaces shall be
clean, dry, and free
of any dirt, dust,
gravel, oil, surface
chemicals or other
contaminants that
may interfere with
optimum adhesion.
Polyglass
recommends an
adhesion test prior
to coating
application. If
adhesion test fails,
additional cleaning
and/or priming
may be required.
