

POLYPUF PART A

ISOCYANATE FOR POLYPUF FOAM SYSTEM

PRODUCT DESCRIPTION

PolyPUF Part A is a polymeric MDI with a functionality of approximately 2.7. PolyPUF Part A is suitable for the production of rigid insulation foams by molding, spraying, and frothing.

USES

- Spray applied roofing system.
- Offers sustainability and high-performance.
- Applied directly to most existing substrates for new and retrofit installations.
- Provides the highest insulation values.
- Acts as an air barrier, insulation and roofing system in a single application.

FEATURES AND BENEFITS

- Seamless and self-flashing, no seams or laps that are potential future leaks.
- Waterproof throughout the entire thickness of application.
- Provides the most waterproofing protection of any roofing system available.
- Easily maintained for one of the lowest life cycle cost roofing installation.
- Energy efficient, high R-value system.
- May be surfaced in a variety of colors, including highly reflective materials.

TYPICAL PROPERTIES

PROPERTY	VALUE
Appearance	dark brown liquid
NCO content, wt. %	31.5
Viscosity @ 25°C, cps	200
Hydrolyzable chlorine, wt. %	0.035
Flash point, °C (COC)	200
Density @ 25°C, g/cm ³	1.23
Weight per Gallon	10.25
Initial boiling point, 5mm Hg, °C	190
Vapor pressure @ 25°C, mm Hg	0.0002

STORAGE

PolyPUF Part A is supplied in drums. Once a container has been opened, care should be taken to exclude moisture. The most favorable temperature for storage is 15–35°C. If stored at higher temperatures, or if moisture is not excluded, an undesirable increase in viscosity will occur. Below 15°C, the product becomes difficult to pump and pour. Below 0°C, crystallization may occur. The shelf life of PolyPUF Part A is nine months if the temperature is maintained at 15–35°C and moisture is excluded.

WARNING

These products can be used to prepare a variety of polyurethane products. Polyurethanes are organic materials and must be considered combustible.

IN CASE OF AN EMERGENCY

Call CHEMTREC (800) 424-9300, day or night for assistance or information concerning spilled material, fire, exposure, and other chemical accidents. Outside the U.S., call (703) 527-3887.
