CURE
technology®

What is CURE Technology?

CURE Technology is a patented thin film technology, resulting in a modified bitumen membrane with greatly enhanced performance benefits without compromising the ease of installation and overall value expected from Polyglass products.

Features and Benefits

- Featured on all Polyfresko® cap sheets
- Vastly improved surface reflectivity and membrane emissivity
- Exceptional granule adhesion
- Ultraviolet stabilizers resulting in greater durability and longevity
- Minimal scorching with torch application
- Impact, scuff and stain resistant
- Mold and fungus resistant
- Solvent-free and environmentally friendly

Stain-Free

Minimal staining on the surface of the cap sheet; significantly resists discoloration. Maintains its color integrity over time.

Reflectivity

Initial reflectivity ratings above industry standards, maintains reflectivity performance over time.

Granule Adhesion

Superior granule adhesion, minimal loss of granules when exposed to foot traffic and other elements.

Thin Film Technology

Minimal surface finishing while maintaining granule appearance, increased durability and improved reflectivity.
