

PROJECT REFERENCE

Newcastle Library Washington, U.S.A. Commercial

The building has several eco-friendly features including a green roof. A garden roof was installed over a Polyglass' SBS roof system which included 1/2" Densdeck prime that was mechanically attached, followed by Elastobase® V torched vapor retarder. Then Polyisocyanurate insulation was mechanically attached with 1/4" Densdeck® prime set in adhesive. The system was finished with Elastoflex® SA V base sheet, a ply of Elastobase® V torched and capped with Elastoflex® S6 G FR in white.

Products:

- Elastobase® V Base Sheet (SBS)
- Elastoflex® SA V Base Sheet (SBS)
- Elastoflex® S6 G FR Cap Sheet (SBS)
