

PROJECT REFERENCE

Terranea Resort California, U.S.A. Commercial

This seaside luxury resort is situated on a cliff overlooking the Pacific Ocean. Considering the high winds that can be experienced in this area, the builders wanted a premium product to cover the 180,000 square foot roof with a premium product. They chose Polystick® TU Plus to be installed under all the Mediterranean tiles on this world-class resort and spa.

Products:

- Polystick® TU Plus Underlayment
