

## PROJECT REFERENCE

### University Of Hawaii Hawaii, U.S.A. Commercial

This high profile job was one of two jobs completed at the time for the University of Hawaii Law School. The 1,500 square foot roof was in need of replacement. Having minimal disruption to the law students utilizing the library to study was critical to the job. After the tear off all the way to the concrete roof deck, a layer of Polyglass® APP Base was applied, followed by Instastik® applied EPS insulation Securock® cover board, two plies of Elastoflex® SA V base sheet and Polyflex® G FR in white.

#### Products:

- Polyglass® APP Base
- Elastoflex® SA V Base Sheet (SBS)
- Elastoflex® G FR Cap Sheet (SBS)
