

It's not too cold yet... Roofing Season is officially extended with Polyglass!

NEW Elastoflex SA V Polar Base® and Elastoflex SA P Polar Cap®, low-temperature SBS (elastomeric) membranes designed for cold weather applications (25°F - 60°F). Manufactured using our patented ADESO® Dual-Compound Self-Adhered Technology, a high-quality Styrene-Butadiene-Styrene modified asphalt compound is applied on the top layer and an aggressive self-adhesive compound is applied on the bottom side of the reinforcement.

Elastoflex SA V Polar Base

- Suitable for cold weather climates
- Base or interply for self-adhered and torch multi-ply systems
- High performance fiberglass reinforcement
- Excellent long-term adhesion
- Low temp flexibility
- Elastoflex SA Polar Base® 2.5 mm (100 mils) also available (Canada Only)

Elastoflex SA P Polar Cap

- Features SEALLap® ULTRA, side lap with self-adhesive compound for an instant bond, tested stronger than all other application methods and FASTLap®, granule-free end lap
- Reinforced with polyester mat for excellent puncture and tear resistance
- Suitable for cold weather climates
- Applied without open-flame torches, solvent-based adhesives or hot-asphalt, all which may be undesirable and/or prohibited
- UV stabilized, long-lasting granule surfacing
- Available in 2 colors: White and Black
