

# Oasis at Naples Condominiums

Residential - Florida, U.S.A.

## Polystick® TU MAX

Premium Self-Adhered High Temperature Roof Underlayment

130,000 ft<sup>2</sup> over Wood Substrate

Installed by Crown Roofing, LLC

2019

Located on Arbor Walk Circle in Naples, Florida, Oasis at Naples is an expansive condominium community built around six lakes, conveniently located near shopping, dining, and beaches. When Crown Roofing, LLC was contracted to install new roofing on the Oasis Naples Condominiums in Naples, FL, sales rep Paul Ladea was very clear as to why they chose Polyglass' Polystick® TU MAX as their roofing underlayment: "It's the best underlayment in the world." For this roofing project, Crown Roofing installed new wood decks and applied Polystick TU MAX as an underlayment beneath Eagle Malibu Riviera Tiles – a project covering a total of 130,000 square feet.

*"It's the best underlayment in the world."*  
- Paul Ladea, Crown Roofing, LLC
