Polystick® MTS PLUS - Self-Adhered Underlayment

Polystick® TU MAX - Premium Self-Adhered Underlayment

200,000 ft²

Installed by Modern Development, USA

2020

Polystick® Self-Adhered Underlayments, produced by Polyglass U.S.A., are manufactured with ADESO®, a patented dual-compound self-adhesive technology which provides for a high temperature weathering surface and an aggressive adhesive compound on the bottom, all of which is reinforced with a high strength fiberglass mat. Each on their own provide for exceptional waterproofing protection and when combined, this two-layer underlayment system doubles the waterproofing protection of your home along with an extended 30 Year Warranty.
