

**Don't delay, 2-ply today!**

## ROOF SYSTEM BENEFITS:

- Redundant protection of multiple layers, exceeding 250 mils
- Exceptional quality, proven strength, and long-term performance
- Provides safe, clean, and efficient application
- Adheres directly to a variety of substrates

- Split release bottom film for ease of install
- Immediate watertight seal upon installation
- Safe, no open flame application; may reduce insurance costs

Also available for cold weather applications;  
25°F – 60°F (-4°C – 16°C)

## LABOR SAVINGS!

- Increased installation productivity
- Reduced labor costs, dried-in fast
- SEALLap® ULTRA side lap with self-adhesive compound for an instant bond, tested stronger than all other application methods
- FASTLap® granule free end lap provides faster, stronger seams

## EFFICIENCY!

- Approved for variety of substrates including Polyiso®
- Peace of mind with multi-layer redundant protection
- Highly reflective white cap sheet options featuring CURE Technology®

## Extended Warranty Protection

Versatile roof systems for commercial and residential projects • Long-term warranty protection

We stand behind our products with the most reliable warranties in the industry. Our warranty programs provide extended protection, assuring the optimum system performance is guaranteed. Polyglass offers options to extend warranty terms when highly reflective roof coatings are added to the roof assembly. We continue to safeguard our customers' assets after the installation with our warranty support.
