POLYFORZA™ NAILER - METAL RETROFIT
WOOD BLOCKING ALTERNATIVE

PRODUCT DESCRIPTION

PolyForza Nailer - Metal Retrofit eliminates the need for individual wood blocking assemblies required for standing seam flute fill. PolyForza Nailer - Metal Retrofit is fast and easy to install by eliminating wood cutting. Additionally, it ensures a secure, straight, and even edge that will provide lasting performance. PolyForza Nailer - Metal Retrofit is available pitched up to a 4/12 or non-pitched for a variety of metal roof installations.

FEATURES AND BENEFITS

- Provided in 12'–0" lengths with pre-punched holes to install up to 60% faster than wood nailers.
- Slotted fastening holes to allow for proper thermal movement of the materials and ensure correct fastener placement and spacing.
- Available in both pitched and non-pitched versions
- Consistent, lasting perimeter protection: won't crack, warp, split, rot or be susceptible to insects. It is also non-combustible and won't absorb moisture.
- ½" to ¾" cover board can be used on top of the product
- Fasteners will arrive to the job site with the product."

APPLICATION INSTRUCTIONS

See PolyForza Nailer - Metal Retrofit Installation Instructions.
