

# KERF CUT PLAZA SLAB

HIGH-DENSITY CONCRETE SLAB,  
PROVIDING A DURABLE, ELEGANT  
ROOF SURFACE

## ✓ FEATURES & BENEFITS

- Compressive strength: 8,500 psi
- Water absorption: less than 5%
- Flexural strength: minimum 725 psi
- Freeze thaw: less than 1% loss in weight after 40 cycles
- Kerf cut provides hidden slot for locking pavers down to pedestal
- Bison pedestal, fastening, and paver design provides high wind uplift resistance
- Hidden locking system does not adversely affect the aesthetics of the plaza deck
- Hidden locking system can be released to allow easy access to the roofing system or utility lines below the pavers
