NOTE:

- Warranty term availability is subject to contractor tier eligibility and applicable Polyglass warranty requirements.
- Labor & Materials Warranties are available for both residential and commercial low slope projects. NDL Roof System Warranties/ Guarantees are intended for non-residential low slope projects only, unless otherwise approved in writing by Polyglass Technical Services.
- All roofing systems shall be installed over substrates acceptable for the specified application method and in accordance with current Polyglass published requirements. System selection and installation shall comply with Polyglass Guidelines and other project-specific requirements.
- * Twenty-five (25) and thirty (30) year warranty terms are available to Premio Pro contractors only and require the use of Mapeplan PVC accessories and metal flashings.
